PROFESSIONAL SUMMARY

Passionate software developer with a B.Sc. in Information Technology and hands-on expertise in MERN stack development, Git, GitHub, and Linux. Proven ability in building full-stack applications, optimizing user experience, and managing deployment pipelines. Seeking to contribute to innovative development teams in a role that leverages technical skills and collaborative mindset.

SKILLS

- ❑ **Web Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), CRUD operations, JWT authentication, Firebase, Google OAuth
- ❑ **Frontend Technologies:** HTML5, CSS3, JavaScript, React, Tailwind CSS, Redux Toolkit, Responsive Design
- ❑ **Backend Technologies:** Node.js, Express.js, REST APIs, MongoDB, API integration, Server deployment
- ❑ **Version Control:** Git, GitHub
- ❑ **DevOps & Tools:** Docker, VS Code, Postman, Cloud Deployment (Vercel, Render)
- ❑ **Soft Skills:** Problem-solving, Analytical thinking, Communication, Team collaboration

PROJECTS

E-Commerce Platform

- ❑ **Overview:** Built a full-featured e-commerce platform with a modern, responsive UI, offering enhanced functionalities like filtering, advanced search, and seamless checkout.
- ❑ **Authentication:** Secured platform with JWT token-based authentication for secure login and registration workflows.
- ❑ **Admin Panel:** Designed an intuitive admin dashboard for efficient management of products, user profiles, and order histories.
- ❑ **Payment Integration:** Integrated Stripe for secure and efficient payment processing, resulting in a 100% uptime during transactions.
- ❑ **Deployment & Management:** Deployed on Vercel; source code maintained on GitHub for continuous integration and version control.

Real Estate Website

- ❑ **Overview:** Created a full-stack real estate platform with advanced search capabilities, robust CRUD operations, and a user-friendly interface optimized for property management.
- ❑ **Authentication:** Utilized JWT, Firebase, and Google OAuth for secure, streamlined authentication and user access management.
- ❑ **User Features:** Enabled smooth property management, with features like image uploads, detailed listing views, and contact landlord functionality.
- ❑ **Technology & Deployment:** Built using MERN Stack (MongoDB, Express.js, React, Node.js) with secure deployment on Render; code versioned and maintained on GitHub

EDUCATION

Bachelor of Science in Information Technology

Maharashtra college of arts, commerce and science , Byculla

CGPI: 6.53

CERTIFICATION

- ❑ MERN full-stack web development
